

HomeGuardTM HOUSEWRAP

Protecting you from the hard elements of mother nature. HomeGuard Housewrap excels with air and water resistance, moisture and vapor permeability as well as durability.

HomeGuard housewrap is an engineered, woven, polyolefin material designed for use as a weather resistive barrier. The strong woven fabric ensures jobsite durability, even in the harshest conditions.

HOME GUARD IS DESIGNED TO PROTECT COMMERCIAL AND RESIDENTIAL BUILDINGS BY EXCELLING IN FOUR CRUCIAL AREAS:

- **Air Resistance:** Protects the wall assembly from air infiltration, to increase the comfort of the building by reducing drafts and increasing energy efficiency.
- **Water Resistance:** Protects the wall assembly against water intrusion that gets behind the exterior cladding.
- **Moisture vapor permeability:** Preserves the integrity of the wall assembly by allowing the moisture to escape to the outside.
- **Durability** - Has the ability to withstand all canadian weather elements as well as harsh jobsite conditions.

TEST	METHOD	UNITS	HOME GUARD	MINIMUM REQUIREMENT
Tensile Strength				
Machine Direction	ASTM D 882	lbs.	54 lbs.	20 lbs.
Cross Direction	ASTM D 882	lbs.	36 lbs.	20 lbs.
Water Resistance	ASTM D 779	Minutes	60 Minutes	10 Minutes
Water-Vapor Transmission	ASTM E 96	Perms	15 Perms	5 Perms
Low Temperature Bend	AC38 Section 3.3.4	N/A	Pass	Pass

BUILD YOUR BUSINESS WITH CUSTOM IMPRINTING ON HOME GUARD HOUSEWRAP

- Imprint your company logo- only one pallet minimum.
- Largest exposure area- 40"x30".
- Multiple color options available.

PUTTING IT ALL TOGETHER.....

HomeGuard Housewrap is a great first step in protecting your home or project from mother nature's harsh elements. Help protect windows, doors and other critical areas from damaging moisture by using a high quality HomeGuard Arctic Flashing Tape. This assures peace of mind when you use the HomeGuard System.

HomeGuard Arctic Flash Synthetic Flashing is a high-density polyethylene facer, coated with an extremely aggressive self-sealing adhesive for use on window headers and jambs. HomeGuard Arctic Flashing Tape has a peel and stick easy installation system with split release liner that self-seals around properly installed fasteners.
